

FESTIVAL « Art and wood passion » 2026

August 29th and 30th

Ladies and gentlemen,

The “Arts and wood passion” festival is the absolute meeting for all wood and arts lovers.

We've been working for years on the quality of the sculptures done and exposed, on the know-how of the craftsmen and exhibitors, on the relevance of our communication, and this has brought us thousands of regular visitors and customers.

The festival is an intimate part of the local rural world, and carries the values of the « ARBBRE » association : the promotion of wood craftsmanship, rural creations and transfer of know-how. For this new edition, LE BOIS will take its inspiration in “**Games, toys and puppets**” from around the world

The key moments for the festival will be :

- International woodturning competitions
- Creation of sculpture using women turning technique,
- Exhibition of Games, toys and puppets
- Talks and conferences
- Happy times around music and wood
- Exhibition and sale in the streets of the village of artisan craftsmen.

The competition between professional is one of the key moments of the festival. We're inviting you to take part in this year's edition using wood as primary working material.

The festival is Earth – Friendly, if needed, you will be hosted locally and will enjoy our local specialities !

As for each festival, we will ask you to donate one of your works to a local tombola organised by the association.

You'll find in the attached link all necessary information regarding our festivals and residences, as well as what will be required for participation.

You will also find the registration form as an enclosed file, this has **to be returned before April 1st 2026**.

Eager to see you for this Year's Edition.

The ARBBRE team
